PRIE Committee Minutes
Friday Nov. 09, 2018
9 a.m. - 10:30 a.m.
Room: Rodda Hall North, RHN 228

Members Present: M. Buechner (PRIE), A. Divanyan (IT), M. Grofe (BSS), K. Flash (LRD), A. Chevraux-Fizhugh (BSS), T. Ho (PRIE), M. Kekahu (PRIE), A. Lewis (L&L), N. Lorenz (IT) and M. Xu (CIS/BUS)

1. Approve Oct. 26, 2018 Minutes

The committee approved minutes from Oct. 26, 2018 with no corrections.

2. Data Liaison Presentations

The committee discussed the role of committee members as data liaisons. It was pointed out that presentations should be taking place in Spring 2019. It was also agreed that M. Grofe’s PowerPoint should be posted as an “Other Committee Items” on the PRIE Committee webpage. Anne Lewis indicated that she would be the liaison to LRC.

3. Updates of GP Area 6 Workgroup

M. Buechner discussed updates on the Guided Pathways Area 6 Workgroup:

- GP Area 6 Workgroup focus is on common metrics and communication
- PRIE will be helping GP Area 6 Workgroup with data. There was discussion about the way GP connects to other initiatives.

3. Discussion of the recently reviewed engagement and success data and plans for liaison-led discussions in various college groups (includes update on PowerPoint presentation)

M. Grofe presented the PowerPoint “SCC African America Student Achievement 2018“. The committee discussed the PowerPoint slides and suggested corrections. For example, committee members agreed that they wanted the slides to be easily understood, readable, and suggested that the addition of verbal summaries to each slide would make it easier to present and easier to follow. In the next PRIE Committee meeting, the PowerPoint will be discussed again.

The group also discussed that the new state funding formula has been established and metrics will eventually become available There was a robust discussion amongst committee members about the new funding formula and the importance of getting students to completion. M. Buechner pointed out that funding will be based on both enrollment and outcome measures. The committee discussed some of the outcome measures that will affect funding- e.g. degree and certificate completion. We will get more money from Associate Degrees for Transfer (AA-T and AS-) than from other Associates degrees. It is likely that we will see more of a push for
completion and degrees in the near future. It was pointed out that some metric measurements might pose an issue for SCC, especially those freshmen metrics that are affected by the UCD students for whom we teach remedial courses.

4. Next PRIE Committee Meeting: Dec. 14, 2018

M. Kekahu asked the committee if we should meet again before the end of the fall 2018 semester. It was pointed out that the second November meeting would not be taking place due to the Thanksgiving holiday, the first December meeting would be the beginning of finals, the second December meeting will be during the holiday break, and that the committee typically doesn’t meet during January due to the late start of the Spring 2019 semester. However, some committee members were concerned that they would not be able to present effectively without some extra guidance on M. Grofe’s PowerPoint information. It was agreed that the PRIE Committee would meet at its regular time on Dec. 14, 2018 to discuss M. Grofe’s PowerPoint.

Future Agenda Items: Feb. 08, 2019

1. Data Liaison Presentations Information (M. Grofe PowerPoint)

2. Look at ACCJC standards and make sure that the PRIE Committee is meeting those standards

3. New State Dashboard from State Chancellor’s Office

   a. Link to CCCCO Launchboard: [http://doingwhatmatters.cccco.edu/launchboard.aspx](http://doingwhatmatters.cccco.edu/launchboard.aspx)

4. Funding formula for community colleges

5. PRIE Committee data request related to Guided Pathways—separating W’s from D’s and F’s
