Committee Charge: The Student Equity Committee will help the college successfully serve the educational needs of the adult population who seek higher education regardless of their social, educational, ethnic, or cultural backgrounds. The committee will maintain and implement the Student Equity Plan that measures student access, course completion rates, ESL and Basic Skills completion rates, degree and certificate completion rates, transfer rates, employment rates, and the supportiveness of the campus environment for all students. The committee makes recommendations and offer strategies for action through the shared governance structure to address discrepancies that exist for under-represented students compared to the rest of the student body.
